

ORGANIZATION OF ACADEMIC EVENTS

AT HIGHER SCHOOL OF ECONOMICS

ABOUT HSE

The National Research University Higher School of Economics established in 1992 is the only national university in Russia conducting economic and social research and one of the biggest of its kind in Europe. It comprises all levels of academic instruction from lyceum up to advanced doctoral study. The HSE houses over 100 research institutes and centers and more than 20 international laboratories headed by prominent foreign scholars including Nobel laureates and Fields Medal winners.

The HSE has also become a leading analytical center under the Government and the President of the Russian Federation involved in the drafting of legislation, national programs and strategies both at the federal and regional levels. The HSE provides analytic support to 10 government commissions and more than 30 government working groups.

As a national research university with a strong network of international contacts, the HSE has extensive experience in holding different public events, often on a global scale.

The HSE regularly hosts scientific conferences and workshops, meetings with government officials and businessmen, scholars and artists, public figures and honored guests.

The April International Academic Conference on Economic and Social Development held annually by the HSE is one of the major events in the sphere of social and economic sciences in Russia, uniting Nobel laureates, winners of other prestigious scientific awards, ministers and the world's leading experts.
